

§ 660.335 Limited entry permits—"Provisional A" endorsement.

(a) A "provisional A" endorsement entitles the holder to participate in the limited entry fishery for all groundfish species with the type(s) of limited entry gear specified in the endorsement, except for sablefish harvested north of 36° N. lat. during times and with gears for which a fixed gear sablefish endorsement is required. See § 660.336 for provisions regarding sablefish endorsement requirements.

(b) A "provisional A" endorsement is not transferrable except as specified in the PCGFMP.

(c) The holder of a "provisional A" endorsement must comply with the requirements set out in the PCGFMP at 14.3.2.4 in order for the permit to be upgraded to an "A" permit.

(d) A "provisional A" endorsement expires at the end of any of the three consecutive 365-day periods (during the 3-year qualifying period) in which a vessel's landings do not meet the applicable landing requirement or upon failure to renew the limited entry permit. A "provisional A" endorsement that expires will not be reissued.

[61 FR 34572, July 2, 1996, as amended at 62 FR 34674, June 27, 1997]

§ 660.336 Limited entry permits—sablefish endorsement and tier assignment.

(a) *General.* Participation in the limited entry fixed gear sablefish fishery during the "regular" or "mop-up" season described in § 660.323 (a)(2)(iii) and (iv) north of 36° N. lat., requires that an owner of a vessel hold (by ownership or otherwise) a limited entry permit, registered for use with that vessel, with a longline or trap (or pot) endorsement and a sablefish endorsement. During a period when the limited entry sablefish fishery is restricted to those limited entry vessels with sablefish endorsements, a vessel with a longline or pot limited entry permit but without a sablefish endorsement cannot be used to harvest sablefish in the open access fishery, even with open access gear.

(1) A sablefish endorsement with a tier assignment will be affixed to the permit and will remain valid when the permit is transferred.

(2) A sablefish endorsement and its associated tier assignment are not separable from the limited entry permit, and therefore may not be transferred separately from the limited entry permit.

(b) *Endorsement and tier assignment qualifying criteria.* A sablefish endorsement will be affixed to any limited entry permit that meets the sablefish endorsement qualifying criteria and for which the owner submits a timely application. Limited entry permits with sablefish endorsements will be assigned to one of three different cumulative trip limit tiers, based on the qualifying catch history of the permit.

(1) Permit catch history will be used to determine whether a permit meets the qualifying criteria for a fixed gear sablefish endorsement and to determine the appropriate tier assignment for endorsed permits. Permit catch history includes the catch history of the vessel(s) that initially qualified for the permit, and subsequent catch histories accrued when the limited entry permit or permit rights were associated with other vessels. The catch history of a permit also includes the catch of any interim permit held by the current owner of the permit during the appeal of an initial NMFS decision to deny the initial issuance of a limited entry permit, but only if the appeal for which an interim permit was issued was lost by the appellant, and the owner's current permit was used by the owner in the 1995 limited entry sablefish fishery. The catch history of an interim permit where the full "A" permit was ultimately granted will also be considered part of the catch history of the "A" permit. If the current permit is the result of the combination of multiple permits, then for the combined permit to qualify for an endorsement, at least one of the permits that were combined must have had sufficient sablefish history to qualify for an endorsement; or the permit must qualify based on catch occurring after it was combined, but taken within the qualifying period. If the current permit is the result of the combination of multiple permits, the combined catch histories of all of the permits that were combined to create a new permit before March 12, 1998, will

be used in calculating the tier assignment for the resultant permit, together with any catch history (during the qualifying period) of the resultant permit. Only sablefish catch regulated by this part that was taken with longline or fish trap (or pot) gear will be considered for this endorsement. Sablefish harvested illegally or landed illegally will not be considered for this endorsement.

(2) The sablefish endorsement qualifying criteria are: At least 16,000 lb (7,257.5 kg) round weight of sablefish caught with longline or trap (or pot) gear in one calendar year from 1984 through 1994. All catch must be sablefish managed under this part. Sablefish taken in tribal set-aside fisheries does not qualify.

(3) Only limited entry, fixed gear permits with sablefish endorsements will receive cumulative trip limit tier assignments. The qualifying criteria for Tier 1 are: At least 898,000 lb (406,794 kg) cumulative round weight of sablefish caught with longline or trap (or pot) gear over the years 1984 through 1994. The qualifying criteria for Tier 2 are: At least 380,000 lb (172,365 kg), but no more than 897,999 lb (406,793 kg) cumulative round weight of sablefish caught with longline or trap (or pot) gear over the years 1984 through 1994. Fixed gear permits with less than 380,000 lb (172,365 kg) cumulative round weight of sablefish caught with longline or trap (or pot) gear over the years 1984 through 1994 qualify for Tier 3. All catch must be sablefish managed under this part. Sablefish taken in tribal set aside fisheries does not qualify.

(c) *Issuance process for sablefish endorsements.* (1) The SFD has notified each limited entry, fixed gear permit holder, by letter of qualification status, whether Pacific States Marine Fisheries Commission's Pacific Fisheries Information Network (PacFIN) records indicate that his or her permit qualifies for a sablefish endorsement. A person who has been notified by the SFD, by letter of qualification status, that his or her permit qualifies for a sablefish endorsement will be issued a revised limited entry permit with a sablefish endorsement if, by November 30, 1998, that person returns to the SFD

the endorsement application and pays the one-time processing fee. No new applications for sablefish endorsements will be accepted after November 30, 1998.

(2) If the permit owner receives a letter of qualification status from the FMD indicating that PacFIN records do not show that his or her permit qualifies for a sablefish endorsement and if the permit owner believes that there is sufficient evidence to show that his or her permit does qualify for an endorsement, that permit holder must submit information to the FMD to demonstrate that the permit does qualify for a sablefish endorsement within 30 days of the issuance of the FMD's letter of qualification status. Section 660.333(d) sets out the relevant evidentiary standards and burden of proof.

(3) After review of the evidence submitted under § 660.336(c)(2), and any additional information the FMD finds to be relevant, the FMD will notify a permit owner if the permit qualifies for a sablefish endorsement. A person whose permit qualifies will be issued a revised limited entry permit with a sablefish endorsement upon payment of the one-time processing fee.

(4) After review of the evidence submitted under § 660.336(c)(2), and any additional information the FMD finds to be relevant, the FMD will notify a permit owner of his determination that the permit does not qualify for a sablefish endorsement.

(5) If permit holder wishes to file an appeal of the determination under § 660.336(c)(4), the appeal must be filed with the Regional Administrator within 30 days of the issuance of the letter (at § 660.336(c)(4)). The appeal must be in writing and must allege facts or circumstances, and include credible evidence, demonstrating why the permit (or interim permit) qualifies for the sablefish endorsement. The appeal of a denial of a sablefish endorsement will not be referred to the Council for a recommendation under § 660.340(e).

(6) Absent good cause for further delay, the Regional Administrator will issue a written decision on the appeal within 45 days of receipt of the appeal. The Regional Administrator's decision is the final administrative decision of

the Department of Commerce as of the date of the decision.

(d) *Issuance process for tier assignments.* (1) The SFD will notify each owner of a limited entry permit with a sablefish endorsement, by letter of qualification status, of the tier assignment for which his or her permit qualifies, as indicated by PacFIN records. The SFD will also send to the permit owner a tier assignment certificate.

(2) If a permit owner believes there is sufficient evidence to show that his or her permit qualifies for a different tier than that listed in the letter of qualification status, that permit owner must, within 30 days of the issuance of the SFD's letter of qualification status, submit information to the SFD to demonstrate that the permit qualifies for a different tier. Section 660.333(d) sets out the relevant evidentiary standards and burden of proof.

(3) After review of the evidence submitted under paragraph (d)(2) of this section, and any additional information the SFD finds to be relevant, the SFD will issue a letter of determination notifying a permit owner of whether the evidence submitted is sufficient to alter the initial tier assignment. If the SFD determines the permit qualifies for a different tier, the permit owner will be issued a revised tier assignment certificate once the initial certificate is returned to the SFD for processing.

(4) If a permit owner chooses to file an appeal of the determination under paragraph (d)(3) of this section, the appeal must be filed with the Regional Administrator within 30 days of the issuance of the letter of determination (at paragraph (d)(3) of this section). The appeal must be in writing and must allege facts or circumstances, and include credible evidence demonstrating why the permit qualifies for a different tier assignment. The appeal of a denial of an application for a different tier assignment will not be referred to the Council for a recommendation under § 660.340(e).

(5) Absent good cause for further delay, the Regional Administrator will issue a written decision on the appeal within 30 days of receipt of the appeal. The Regional Administrator's decision is the final administrative decision of

the Department of Commerce as of the date of the decision.

(e) *Tier assignment certificates.* For the 1998 season only, permit holders with sablefish endorsements will be issued certificates of tier assignment that are to be kept with and are considered part of their limited entry permits. When limited entry permit holders renew their permits for 1999, tier assignments for those limited entry permit holders with sablefish endorsements will be indicated directly on the limited entry permit.

[62 FR 34674, June 27, 1997, as amended at 63 FR 38114, July 15, 1998]

§ 660.337 Limited entry permits—"designated species B" endorsement.

(a) *Issuance criteria*—(1) *General.* *Designated species* means Pacific whiting, jack mackerel north of 39° N. lat., and shortbelly rockfish. Bycatch allowances in fisheries for these species will be established using the procedures specified for incidental allowances in joint venture and foreign fisheries in the PCGFMP.

(2) *Catch limit.* On or about October 1 of each year, the FMD will determine the commitment of persons with limited entry permits with "A" gear endorsements (the "limited entry fleet") to harvest each designated species for delivery to domestic processors during the coming year. "Commitment" means a permit holder's contract or agreement with a specific domestic processor to deliver an estimated amount of the designated species. The "designated species B" endorsement catch limit is the harvest guideline or quota for the designated species minus the commitment of the limited entry fleet. If the commitment is less than DAP and the harvest guideline or quota for the species, "designated species B" endorsements valid for delivery to domestic processors will be issued in numbers necessary to reach but not exceed the harvest guideline or quota. "Designated species B" endorsements also may be issued for delivery to foreign processors of designated species for which a JVP is established. If, at any time during the fishing year, the FMD determines that any part of the limited entry fleet commitment will not be taken, the Regional Director
